Dimension	208.0 × 165.0	245.0 × 199.0
Material	PET	
Thickness	0.188	

Unit (mm)

4 Instruction

1. Wipe any dirt off the display using a soft cloth slightly dampened with neutral detergent or alcoholic solvent.
2. Remove the back sheet of the protective sheet.
3. The tab of the protective sheet should be positioned at lower left. Align the right side of the protective sheet with that of the display, then apply the protective sheet onto the display. Care should be taken to avoid ingress of air.
4. On the top of protective sheet, a thin cover sheet is applied to prevent the protective sheet from being damaged during transportation. Remove it before using the display of HG series.

5. Replace the protective sheet with new one when it gets dirty or scratched.

5 Notes for Operation

The Protective Sheet has no protection effect against chemicals.

This product has used a special material to filter out UV rays, however no warranty is given as to be installed in direct sunlight of outside.
