## **IDEC announces strategic partnership with Electro Pneumatic Solutions to expand market presence in Serbia and Macedonia.**

**IDEC Corporation, a global leader in industrial automation and safety solutions, is proud to announce its partnership with Electro Pneumatic Solutions, a trusted distributor of automation technology in Serbia and Macedonia. This collaboration will provide local industries with access to IDEC's premium products, enhancing automation, safety, and efficiency across various industrial sectors.**

Through this partnership, Electro Pneumatic Solutions will offer a comprehensive range of IDEC products, including:

- **Programmable Logic Controllers (PLCs)** – Enabling precise and reliable automation control.
- **Human-Machine Interfaces (HMIs)** – Ensuring seamless interaction between operators and machines.
- **Panel/PLC Solutions** – Integrated automation solutions for optimized performance.
- **Safety Laser Scanners** – Advanced safety solutions for industrial environments.
- **EZ-wheel** – Industrial mobility solutions for enhanced operational efficiency.

By combining IDEC's cutting-edge technology with Electro Pneumatic's expertise in automation integration, the partnership will empower local industries to streamline their processes, improve workplace safety, and drive operational excellence.

*"We are thrilled to collaborate with Electro Pneumatic Solutions to bring IDEC's innovative products to a broader market in Serbia and Macedonia," said Steve Schiller, IDEC EMEA Business Unit Manager. "This partnership aligns with our commitment to delivering high-quality automation solutions that enhance productivity and safety worldwide."*

Electro Pneumatic Solutions, known for its dedicated team of engineering professionals, will provide expert consultation and technical support to ensure seamless integration of IDEC solutions into industrial applications.
